BUSINESS REFEREE. Your letter 12/01/16 (Crosby Management Training)

I have been working with Crosby Management Training (based in Birmingham) for over 4 years. They provide me with training, development and assessment of workplace assessors. They also manage all associated administration and qualifications associated with the awards gained.

My experience with the whole team at Crosby (from administrator to CEO), has been exemplary, they are a truly professional business. Crosby Management Training understands my organisation and promotes the behaviours I require in my assessors when carrying out their duties. They provide me with a first class service, at an excellent price, consistently.

They have not failed a business target, which for my organisation is often mission and safety critical. Most recent example, is an overseas/international assignment (middle east). Their attention to detail, effort and support with their client (my employee) has been first class and has led to successful outcome for him and Rolls-Royce.

Paul Cadman and Sue Thompson set the bench-mark in their sector. We can all learn something from Crosby Management Training.

Yours sincerely, for and on behalf of Rolls-Royce Plc

Neal Palmer
